

## BeoLab 12-2 now in white

Struer, July 2012

Bang & Olufsen is now launching its sculptural BeoLab 12-2 speakers in white.

BeoLab 12-2 join the slightly larger BeoLab 12-3 as the company's first dedicated wall speakers specially designed for rooms with a flat screen television.

The wall-hugging design makes the speakers an ideal choice for any premium surround sound setup – both as front or rear speakers. The outstanding acoustic performance furthermore makes the speakers an attractive companion to any Bang & Olufsen audio systems.

BeoLab 12-2 are available in either white or aluminium, and are now available exclusively at Bang & Olufsen shops.

**Bang & Olufsen** was founded in Struer, Denmark, in 1925 by Peter Bang and Svend Olufsen, two innovative, young engineers devoted to high quality audio reproduction. Since then, the brand has become an icon of performance and design excellence through its long-standing craftsmanship tradition and the strongest possible commitment to high-tech research and development.

Still at the forefront of domestic technology, Bang & Olufsen has extended its comprehensive experience with integrated audio and video solutions for the home to other areas such as the hospitality and automotive industries in recent years. Consequently, its current product range epitomizes seamless media experiences in the home as well as in the car and on the move.
